INDO-CHINA STEAM NAVIGATION COMPANY, LIMITED.

The M. M. Company's steamship *Natal*, with the French Mail of September 29th, is to leave Singapore on Thursday, the 6th inst., at 7 a.m., and may be expected here on or about Thursday, the 13th inst. This packet brings replies to letters despatched from Hongkong on July 28th.

His Excellency Sir George William de Voeux is expected to arrive to-morrow by the O. P. M. steamer *Abyssinia*, and arrangements have been made for his reception. The road from Government House to Mu ray Pier will be lined by the Police, and a guard of honour will be in attendance. If His Excellency arrives before 5 p.m. a meeting of members of the Legislative Council will be held forthwith in the Council Chamber—for the purpose of witnessing the taking of the usual oath of office. If the steamer is late, 5 o'clock in coming in the ceremony of swearing in will be performed next day.

H. R. H. Devawongse, of Siam, who represented the King of Siam at the Queen's Jubilee celebrations in London, arrived here to-day by the *Theran*, accompanied by his suite and by H. E. the Governor of Khris, who met the Prince in Japan. His Highness made good use of his time while in Europe and America, and seems to have applied himself to the study of Western ways. He made his return journey by the Canadian Pacific route, crossing from Vancouver to Yokohama by the a.s. *Pavilion*. He remained some days in Japan, and it was said that he was to himself his visit to a strange treaty of Commerce before the Governments of Siam and Japan.

The goldmine No. 8 in Kiu Lane, situated between Queen's Road, and Praya West, and occupied as a medicine store by the Kong Fong Wo, Bonham Strand, was this morning destroyed by fire, which broke out shortly before five o'clock. All the stock within the premises was destroyed, but by the efforts of the fire brigades the fire was prevented from spreading to the adjoining buildings. The store is insured for \$25,000 with an office for which Messrs Meyer and Co. are agents. While the pawnbrokers' fire-brigade were taking their manual engine from the Station in Queen's Road West to go to the fire, the engine got beyond their control in running down a declivity in the road, with the result that four of the men were knocked down and run over. They were all removed to the Tang Wah Hospital. Their injuries are not believed to be of a serious character.

We hear that Mr. Bedell Lee Yeen has resigned his post as First Interpreter at the Magistracy. In the ordinary course the Second Interpreter will doubtless get his post; and this raises the question who is to get the latter's post. The interpretation at the Police Court, as solicitors or any one who has anything to do with the Court will admit, is anything but perfect. It is therefore a matter of great importance that a properly qualified man should be got, as very often a shade of difference in the rendering of an expression may entirely alter the aspect of a case. There is a clerk in the Lord Carrington's office who has a good deal of influence, and who gave good satisfaction in one or two important cases that were tried some time ago; and we know that all the solicitors would be delighted to know that the Government had appointed him. The difficulty is in the way of this is that Mr. Chan Kai Ming is at present in receipt of better pay in the Magistracy. But surely the Government ought not, for the sake of a few dollars extra, to throw away the chance of a good man. One good interpreter is worth a hundred bad ones.

Every day that passes is adding to the anxiety that is felt for the safety of H. M. S. *Waap*, which left Johore on the 10th September for Hongkong and has therefore been out more than 25 days. The *Cockchafer* and the *Firebrand* have been sent out from Hongkong to search for her, and a steamer belonging to the Singapore Government has also left on the same errand. The naval authorities here have likewise requested the Captains of the steamers trading between here and Manila to keep a look-out for the gunboat, and have wired to China and other ports here, and Singapore regard her. As yet however no result has come of this action. There was a rumour that the Russian transport which passed through this harbour recently had sighted the *Waap* labouring in one of the typhoons that was raging in the China Sea, about two weeks ago, but the Russian vessel made no report on the matter and had left before the rumour could be confirmed. The *Waap*, which is a new vessel of 670 tons, 73 men and 1,000 horse-power, and is armed with six 5-inch breech-loading guns. She arrived in Singapore from Home on the 18th August, and is a consort of the *Rattler* now on the Singapore station. Her officers are: Lieut.-Commander Bryan J. H. Adasaw, Sub-Lieutenants A. W. Atkinson and H. G. D. Fortescue; Surgeon T. Nunn, M.D.; Assistant Paymaster-in-charge N. R. Greenwood, Engineer H. Attwool, and Gunner G. R. Hodges.

The German steamer *Iudaea* arrived on the 21st September at Nagasaki, and went out for a trial trip the same afternoon, preparatory to being sold to the Japanese. The result being satisfactory, she was taken on the slip the following day, for cleaning and painting, and came off again on Saturday. She now lies at the head of the harbour, but has not yet hoisted the Japanese flag.—*Rising Sun*.

MAX O'Reilly's new book on Scotland and the Scotch, entitled "F.A.M. MacDonald," will be in Paris on Sept. 7. M. Calman Levy is the publisher.

The Peking Spy says—An accident occurred on board H. M. S. *Leander* on Wednesday afternoon last, resulting in several of her crew being seriously injured. As she left for Shanghai shortly afterwards, we have learned, she had to make a full portmanteau, because the weather was so bad. We believe the mishap occurred whilst inward a cabin steward from the davits. One of the unfortunate men was severely scalded on the breast, another had his collarbone and several ribs broken, and three or four more received various slight injuries. The injured men were taken to sea to safety.

It is said that Mr. Sparrow is in the habit of testing the abilities of the more promising students of his college by challenging them to go up into the pulpit with a sealed envelope in their hands containing the text of their address. On one of these occasions a student, on opening the paper, found this subject, "Apply the story of Zacheus to your own personal qualifications and call." And he delivered himself in the following way—My brethren, the subject on which I have to address you today is a comparison between Zacheus and my own qualifications. Well, the first thing that we read of Zacheus was that he was of small stature, and I never feel so small as I do now. In the second place, we read that he climbed up into a tree, which is very much my position now. Thirdly, we read that Zacheus made haste to come down, in which I joyfully follow his example."

Those who remember the old British Consulate at Nagasaki, with its pretty background of forest trees and graceful bamboo, must be interested in its present transformation from a Consular Court to a Mission Educational Establishment. By the hand of a sum of \$5000 from a Dr. Steele, the old buildings have been purchased, and new ones of a different character erected, which are to be known by the name of the "Steele Academy." There is a main two-story building, containing lecture rooms, library, and chapel; and there are also separate neat apartments for the residence of Japanese students. This institution was opened on Thursday last, when the Chapel was filled with foreigners and Japanese, all taking a lively interest in the event. Appropriate speeches were made by the Rev. H. Stout, the (original and promoter of this work), the Rev. S. G. Stearns, the Rev. A. Outram, (the Principal), the Rev. H. N. Demarest, and the Rev. B. Bishop, of the Methodist Mission. The English Church was also represented by the Ven. Archdeacon Mathewson. Of the other residents present we were glad to see Mr. and Mrs. Beckwith, Mrs. Stout, Mrs. Demarest, Rev. J. C. Davison, Miss Mathewson, &c., &c., though the interest of the occasion called for a large attendance.—*Rising Sun*.

The *Tai-Pan* pointed out to me the prisoner had admitted to a friend of his after his arrest, that he stole a jacket from the box belonging to the complainant, although he denied having taken the money. But Mr. Dennis submitted, if his Worship believed that the man stole the jacket, he must also believe that the money was taken by him as well.

His Worship remanded the case till tomorrow.

THE ALLEGED TRAFFIC IN GIRLS.

We do not wish to comment, while the case is still pending in Canton on the application for the handing over of the six girls who were taken charge of by the Acting Registrar General on suspicion of their being smuggled out of the Colony for unlawful purposes. The case, however, is very important one to which as much publicity should be given as possible; and although, in our reports of the case, we have already given the gist of the following affidavit, which have been sent to us, we think it might be well to give them in full. The first affidavit contains the statement of Mr. Stewart Lockhart, and the other contains the statement made by one of the girls, and is similar in import to that made by the other five:

I, James Hallam Stewart-Lockhart, of Victoria in the Colony of Hongkong, Acting Registrar General of the said Colony, make oath and say as follows:

On the 10th August last, the Detective of the Society for the Protection of Women and Children came to my office with a woman and six girls. He informed me, and I believe such information to be true, that he had found them on board a steamer of the Peninsular and Oriental Steam Navigation Company, sailing on the said steamer portion of the ship. I questioned the said girls, and from what they told me I believed they had been purchased and were being smuggled out of the Colony, and considered it my duty as Professor of Chinese to detain the girls pending enquiry and they were accordingly sent to the Tang Wah Hospital.

—A subsequent interview I had with the said girls they informed me that their real names were Ho Yen, Ho Po Ngoo, Ho Pi Yuen, Ho Hi Tsui, Ho Li Tsui and Lo Tsui To. —The said Ho Yen informed me that she was 19 years old, that she was the sister of the said Ho Yuk, that she had no parents, and in short, whether it is our good fortune or not to be a Roman Catholic, but one, moreover, but lately an officer in the Australian service, and still retaining Australian sympathies. I have had the opportunity of hearing the opinion of Russians well known for their political moderation, and sincerely desirous that European peace should not be broken, and they regard the continued presence of Prince Ferdinand in Bulgaria not only as a menace to a daily growing danger, as a matter of fact, it is a once admitted that Russia cannot allow the Bulgarian Throne to be occupied by a ruler as Prince Ferdinand, and thus her legitimate position in the Slave world, is then the longer he stays the greater is the danger to the peace of Europe. Not a single Powers recognizing him, notwithstanding his efforts, can interfere on his behalf; but it has succeeded in strengthening his position, and eventually in winning a certain amount of sympathy among Bulgarians, which at present he utterly lacks, it may become more difficult to get rid of him. Yet to his mind, for Russia will never abandon her present view on the subject. What is now necessary between Russia and Prince Ferdinand might then give rise to a European collision.

ALLEGED THEFT OF MONEY ON A STEAMER.

Wong Atong, lately employed as cook to the firman on board the German steamer *Marie*, was brought up on remand, before Mr. Mitchell-Innes in the Police Court to-day, on a charge of stealing \$300 from an oiler on board the vessel named. The complainant charged the prisoner with stealing a tin box from him containing letters in which were enclosed money to the amount of \$300. The letters were placed in charge of the complainant by certain parties in Haiphong, and it was alleged that the prisoner took the opportunity after the vessel was moored in the harbour to make off with the box containing the letters. A cabin boy on board the *Marie* stated that he saw the prisoner going ashore shortly after five o'clock carrying a packet, wrapped in a red handkerchief.

F. G. Giffen, chief engineer on the *Marie*, said the defendant was firemen's cook on board the *Marie*, and came on board at Haiphong. The vessel anchored here about half-past four. The complainant and the other firman had to clean the engine-room which they finished about half-past five. Shortly after six o'clock, in consequence of a report made to witness by the complainant, he went to the firman's cabin. He was shown a box which seemed to have been broken open, judging by the condition of the lock. He made a search for the box which he believed to have been stolen, out of the firman's cabin, but did not find it. Nobody from the shore could have gone into the firman's cabin without being seen.

The second officer of the *Marie* gave corroborative evidence. None of the boys, he said, had gone ashore before the report was made about the box being stolen. There was only one gangway out, which was on the starboard side. The police launch came alongside about a quarter of an hour after the vessel arrived, and a policeman came up the gangway and stood on the platform for a few minutes, after which the launch left. This was before the chief engineer spoke to him about the report made by the complainant. The prisoner had gone ashore between the time the Police launch had called and the time that the passengers went ashore—about a quarter past five.

A Chinese constable stated that on the morning of the 21st ultimo in consequence of instructions he went in search of the defendant. He found him in the Tang Wah Hospital on the following day. He was present when the

SERIOUS FRACAS AT AMOY.

(From our Correspondent.)

AMOY, Oct. 3, 1887.

Yesterday a very serious affraying case occurred in Amoy. It appears that some Manchu men, part of the crew of the British frigate *Archies*, who had gone on shore, thought themselves insulted by something which a boy belonging to one of the German vessels, here said to them, and immediately drew their knives and commenced cutting all that came in their way, with the result that four German seamen were stabbed, one very seriously. Indeed I hear that his life is almost despaired of. Another was stabbed in the back, one had a gash in his arm laying bare the bone, and the fourth was cut in the leg. A preliminary examination was held at H. B. M. Consulate this morning, when the men were remanded.

Vessels in Port.—German gunboat, *Itis*; Steamers: *Dionys*, *Tiverton*, *Swallow*, *Glenugie*, and *Zafiro*. Sailing Vessels: *Mercur*, *Bygiri*, *Elizabeth*, *Anne Witcher*, *Tesuan*, *Le Avenir*, *Archies* and *Hok Lee*.

COXEA.

(From our Correspondent.)

COXEA, Sept. 26th.

A new President of the Korean Foreign Office has been appointed; it is the Jho Pum-Sik, an elderly man of considerable ability. Although not an experienced man in Foreign Affairs, his assumption of office is looked upon with satisfaction, as any one is considered better than the ignorant (Sur) who had lately been stripped of rank. To-day Mr. Takahira, the able and energetic representative of Japan, has left this place for his new post as Consul-General at Shanghai. He carries with him the good wishes of all who had the honour of his acquaintance in this country. His Excellency Oondo has taken over charge of the Legation.

Yuen, the Resident, says he will go this evening. He can't stand it any longer, as the Korean officials have, very rightly, ceased to call and *kaekao* at his house (so-called Yame). For the sake of this country it is to be hoped the younger will "get" *chep* *chep*. This is the *ex-physi*.

A very sensible appointment has lately been made here, viz: Mr. Jeffries, of New Zealand and Australia experience, has been placed in charge of the Royal

Farm and the Agricultural Department. Much good will doubtless accrue, in a few years, from this step, which is perhaps one of the most sensible acts the Government has ever taken.

It is said that the port of Ping Yang on the Tabong river will be thrown open in the third month of next year. A considerable increase in the Customs revenues will doubtless result therefrom.

The live on the subjet which applies to the military cordon in Act III of 1887. This Act has been very negligently carried out in some districts, and it has lately been experimentally suspended (with the greatest regularity throughout a part of the country). The enthusiasts of Exeter Hall aim at its entire repeal. In Calcutta where a large number of soldiers are stationed, a *calcutta* of British troops will be maintained, and for that the base hospital of British origin will be established.

His Majesty, together with the Crown Prince, proceeded in state to visit the ancestral tombs. Tens of thousands of orderly and loyal citizens witnessed the brilliant pageant.

The reverence of the people for their philanthropic Sovereign is daily increasing;

while their hatred of the false and tyrannical Chinese interloper becomes more apparent from day to day.

—On the 10th August last, the Detective of the Society for the Protection of Women and Children came to my office with a woman and six girls. He informed me, and I believe such information to be true, that he had found them on board a steamer of the Peninsular and Oriental Steam Navigation Company, sailing on the said steamer portion of the ship. I questioned the said girls, and from what they told me I believed they had been purchased and were being smuggled out of the Colony, and considered it my duty as Professor of Chinese to detain the girls pending enquiry and they were accordingly sent to the Tang Wah Hospital.

—A subsequent interview I had with the said girls they informed me that their real names were Ho Yen, Ho Po Ngoo, Ho Pi Yuen, Ho Hi Tsui, Ho Li Tsui and Lo Tsui To. —The said Ho Yen informed me that she was 19 years old, that she was the sister of the said Ho Yuk, that she had no parents, and in short, whether it is our good fortune or not to be a Roman Catholic, but one, moreover, but lately an officer in the Australian service, and still retaining Australian sympathies. I have had the opportunity of hearing the opinion of Russians well known for their political moderation, and sincerely desirous that European peace should not be broken, and they regard the continued presence of Prince Ferdinand in Bulgaria not only as a menace to a daily growing danger, as a matter of fact, it is a once admitted that Russia cannot allow the Bulgarian Throne to be occupied by a ruler as Prince Ferdinand, and thus her legitimate position in the Slave world, is then the longer he stays the greater is the danger to the peace of Europe. Not a single Powers recognizing him, notwithstanding his efforts, can interfere on his behalf; but it has succeeded in strengthening his position, and eventually in winning a certain amount of sympathy among Bulgarians, which at present he utterly lacks, it may become more difficult to get rid of him. Yet to his mind, for Russia will never abandon her present view on the subject. What is now necessary between Russia and Prince Ferdinand might then give rise to a European collision.

—The said Ho Po Ngoo informed me that she was 16 years old, that she had no parents, and she did not wish to go to Singapore, but that she was desirous of being married in Hongkong.

—The said Ho Po Ngoo informed me that she was 18 years old, that she had no parents, that she was sold when quite young to a woman who again sold her to the said To Ng for the sum of \$100, that she did not wish to go to Singapore, but desired to get married in Hongkong.

—The said Ho Po Ngoo informed me that she was 13 years old, that she had no parents, that she had been brought by the said To Ng to Singapore, and that she did not wish to go to Singapore, but desired to get married in Hongkong.

—The said Ho Po Ngoo informed me that she was 13 years old, that she had no parents, that she had been brought by the said To Ng to Singapore, and that she did not wish to go to Singapore, but desired to get married in Hongkong.

The Overland China Mail.

A WEEKLY JOURNAL FOR THE HOME MAIL

IS PUBLISHED to suit the Departure
of each ENGLISH and FRENCH MAIL
Steamer for Europa. Formerly the Over-
land issue was published fortnightly; but
as it was deemed of special importance that
a weekly budget of news should be prepared,
it was decided to issue it weekly. Sub-
scribers at Home, and those at the Coast
Ports and in the interior, who find the
Overland edition a convenient form of news-
paper for their perusal, will welcome a very
interesting and readable number. Me-
teorologists will find an interesting and
valuable contribution by Dr. Fritsche,
on "The Amount of Precipitation (Rain
and Snow) of Peking" showing the results
of observations made at the Imperial Rus-
ian Observatory at Peking, from 1884 to
1880. "Notes on the Dutch Occupation
of Formosa," by Mr. Gao Phillips, contains
some interesting information, although
much of it is second-hand. The Notices of
New Books include a most generous and
appreciative review of "The Divine Classic
of Nan-Hua," and the Notes and Queries
are as usual very interesting. "North-China
Daily News."

"A substantiated and reliable Review which
all students of China and the Chinese would
do well to patronise."—*North-China Herald*.

"The China Review" for September, October
fully maintains the high standard of
excellence which characterises this publica-
tion, and altogether forms a very
interesting and readable number. Me-
teorologists will find an interesting and
valuable contribution by Dr. Fritsche,
on "The Amount of Precipitation (Rain
and Snow) of Peking" showing the results
of observations made at the Imperial Rus-
ian Observatory at Peking, from 1884 to
1880. "Notes on the Dutch Occupation
